

INTEGRATED LEGACY PACKAGING TEAM FOR EXPLOSIVES

Presented by:

Cindy Kajder

Sandia National Laboratories

History

1999: Team formed with Sandia and LANL

Objective: To create and define a process to obtain Legacy explosive packagings throughout the DOE Complex

2000: Cerro Grande Fire, DP Life of Program assets lost

Team refocused efforts to re-design and obtain replacement packagings

Sandia National Laboratories

Current Activities

- 💣 Partnering between Sandia, LANL, LLNL and Pantex
- 💣 Upgrading legacy explosive packaging drawings to current technical specifications and designs
- 💣 Share packaging technologies for explosive packaging material configurations

Current Activities

Desiccant, Bag

Humidity Indicator Card

Container, Pipe Assembly

Sandia National Laboratories

Next meeting, March 14, 2002 at SNL
